EGO Systems' Catalog Spring/Summer 1996

How to use This Catalog

The majority of the ads in this catalog are for products that are available directly from EGO Systems. For any of these products, you can contact EGO Systems directly using the information shown at the bottom of pages 2 through 15 (and page 16). Pages 2 through 13 (and 16) show EGO Systems' IIGS products, while pages 14 and 15 show our Macintosh products.

The products on pages 16 through 19 are marketed and sold by companies other than EGO Systems. These companies are: Alltech Electronics (page 16), The Byte Works, Inc. (page 17), The KansasFest Committee (page 18), and Sequential Systems (page 19). If you are interested in one of the products shown on pages 16 through 19, please contact the appropriate company, *not* EGO Systems!

What's New in This Catalog?

This time around, we've got new a new ad from The Byte Works, as well as a new *lower* price on the ZipGS accelerator (page 7)! Plus, we've got *new* Apple II and IIGS products for you! The new Apple II products are a set of TimeOut utilities for AppleWorks (page 12), and the new IIGS products are our own RTF Translator for GraphicWriter III (page 10), ANSITerm and PMPFax! (Page 11.) We've also got *The Complete Guide to SheppyWare* (page 9)! Finally, we've also managed to secure a limited quantity of the popular (and out of print) PublishIt! v4.0, as well as some 4MB IIGS RAM cards! For information on these products, see pages 13 and 7 respectively. But hurry! Once we sell out, they are gone for good!

How to Keep This Catalog Coming to You

If you want to see more Apple IIGS & Macintosh catalogs similar to this one, you have to let us know! To do this, whenever you order *any* product from this catalog (either from EGO Systems or one of the other vendors) be sure to mention that you saw the product in this catalog! If you don't, we won't know that the catalog is working! (And, if you don't see anything that you want in this catalog, but you want us know that you appreciate getting it, give us a call at 423-843-1775!)

How to Stop This Catalog From Coming to You

If you no longer own an Apple IIGS or a Macintosh and you don't want to receive any more catalogs from EGO Systems, please let us know by either sending us a postcard or some e-mail. You can also call us at 423-843-1775 to have us take your name off of our mailing list.

Special Bundle Prices

If you want to save a bundle on some of the EGO Systems products in this catalog, try *ordering* a bundle:

AutoArk/Balloon Bundle - $55 (Save $5)
KansasFest 1992/1995 Video Bundle - $30 (Save $5)
Pointless/TypeSet/TypeWest Bundle - $70 (Save $15)
TimeOut AboutTime/DiskTools/ShrinkIt Plus/Statistics Bundle - $150 (Save $24.80)
Shrink II/Teach Translator Bundle - $50 (Save $14.90)
Deja][/Shrink II Bundle - $100 (Save $19.95)
Deja][/Shrink II/Teach Translator Bundle - $120 (Save $24.85)
(Shipping charges, if any, still apply to all bundles.)

Contacting EGO Systems on the Internet

To contact EGO Systems on the Internet, simply send e-mail to either Diz@genie.com or GSPlusDiz@aol.com. If you have access to the World Wide Web, point your web browser towards the URL - http://www.hypermall.com/ego/index.html

Legal Mumbo Jumbo

All products sold by EGO Systems have a 30-day Money Back Guarantee. Simply return any product (with all materials intact) within 30 days and you'll get a complete refund (minus shipping costs). EGO Systems takes no responsibility for the products offered or claims made on pages 16 through 19 of this catalog. For information on these products, contact the appropriate advertiser using the information given in their ad. Deja][is a trademark of JEM Software. AppleWorks is a trademark of Claris. Apple IIGS and Macintosh are trademarks of Apple Computer Inc. Addressed For Success, AutoArk, Balloon, Shrink II and Teach Translator are trademarks of EGO Systems. Addressed For Success™

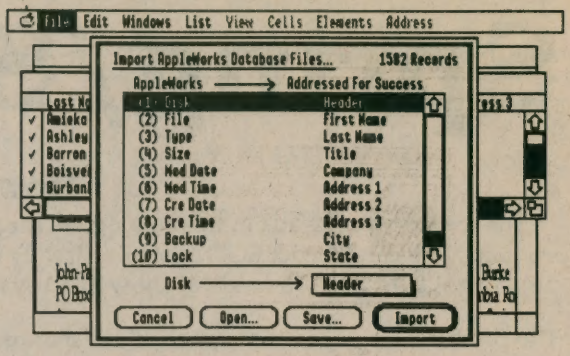
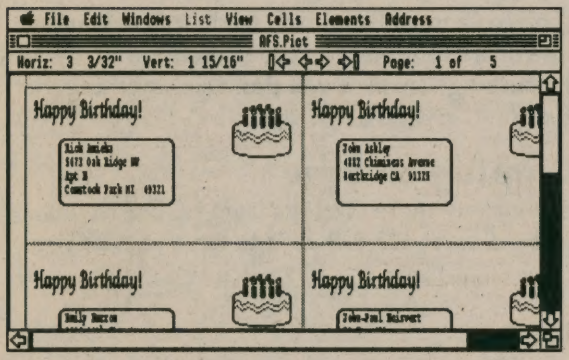
Imports ASCII text files and AppleWorks Classic v3.0 and v4.0 databases†

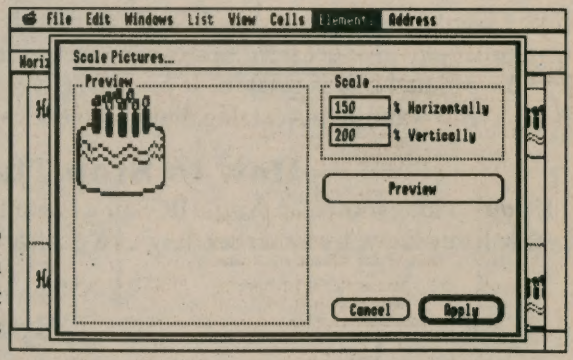


Includes dozens of pre-made label templates and lets you easily design your own label templates

Works With All of Your IIGS Fonts — TrueTypes & Bitmaps
Performs Bulk Sorts For Reduced Postage Costs*
Prints on Any IIGS Compatible Printer
Prints Postal Bar Codes*
Lets You Select "By Example" the Records You Want to Print
Lets You Easily Specify a Return Address For All Your Labels



Lets you print up to three different graphics on each label



Allows you to individually scale each graphic for the best printing results

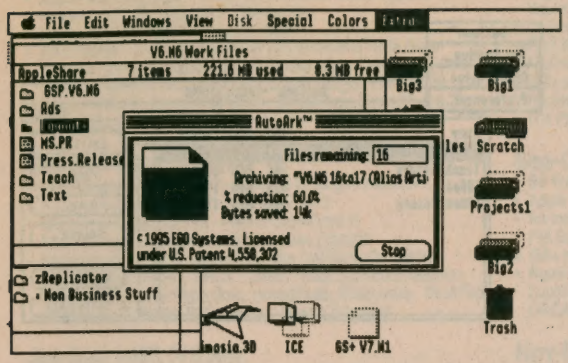
You can do all of these things, and much more, with Addressed For Success™! Addressed For Success is the only desktop-based, label design and printing application available for the IIGS. It's powerful, versatile, and extremely easy to use. Best of all, Addressed For Success costs only $35! So, whether you need to print a dozen labels or 1,200, Addressed For Success is exactly what you need to make yourself, and your labels, look great!

To order Addressed For Success v1.1, send a check or money order for $35 in U.S. funds to: EGO Systems, 7918 Cove Ridge Rd., Hixson TN, 37343-1808. If you prefer to order by credit card, you can use your Visa or MasterCard by calling us toll-free at 1-800-662-3634. Outside of North America, please call 1-423-843-1775. Or, FAX us at 1-423-843-0661. TN residents add 7.75% sales tax. System Requirements: An Apple IIGS with System 6.0 or later, 2MB of RAM and at least one 3.5-inch disk drive. A hard drive and 4MB of RAM are strongly recommended! †Addressed For Success v1.1 can not *directly* import AppleWorks Classic v5.0 or v5.0.1 databases. However these databases can easily be imported into Addressed For Success by first using AppleWorks to save them as ASCII text files. *Use of postal bar codes and/or bulk sortations to obtain a postage discount requires a permit from the Postal Service. See your local Postmaster for details. Addressed For Success was written by Michael Lutynski. Addressed For Success is a trademark of EGO Systems. AppleWorks is a trademark of Claris.

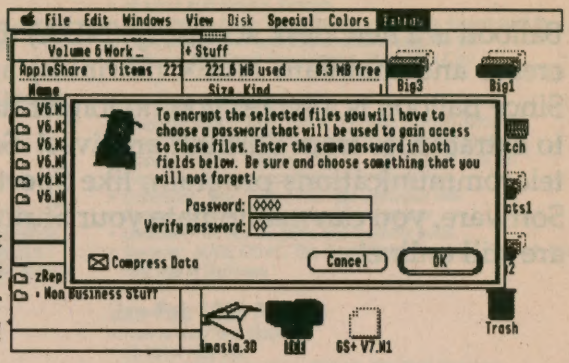
1-800-662-3634 or 1-423-843-1775 or 1-423-843-0661 (FAX)

EGO Systems, 7918 Cove Ridge Rd., Hixson, TN 37343-1808

AutoArk™



Automatically compresses & expands files to give you up to twice as much storage space!

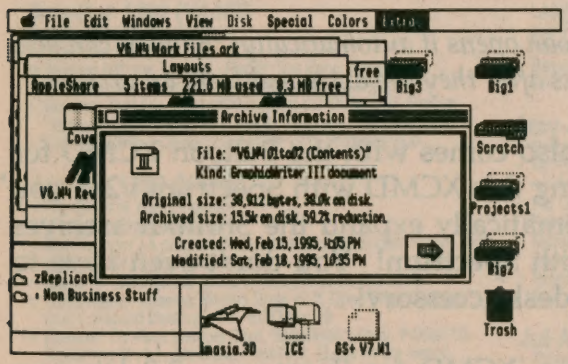


File Edit Windows View Disk Special Colors
To encrypt the selected files you will have to choose a password that will be used to gain access to these files. Enter the same password in both fields below. Be sure and choose something that you will not forget!
Password:
Verify password:
Compress Data
Cancel
OK
Big3
Big1
Trash
Amosia.3D
GS+ V7.N1

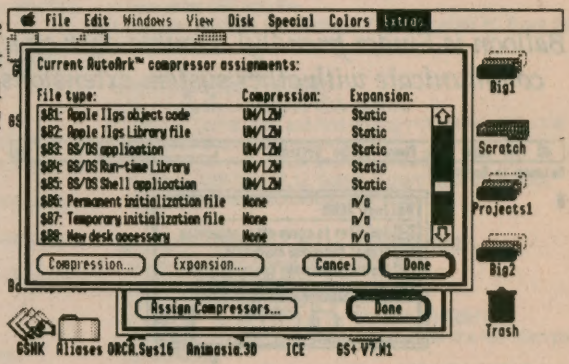
Allows you to encrypt and password protect sensitive files on your IIGS!

AutoArk™ is the *original* integrated file compression program for the Apple IIGS. It lets you compress a file and then, when you need to use it, AutoArk steps in and automatically expands the file for you. Then when you've finished with the file, AutoArk steps in again and automatically recompresses the file for you! AutoArk also lets you encrypt and password protect those files that you want to keep safe from prying eyes!

AutoArk v1.1 also includes a new Finder extension, Smart Names, that lets you compress and expand files simply by changing their names! For example, if you have a file named "UGroup.List"and you change its name to "UGroup.List.ark", Smart Names will see the change, and immediately tell AutoArk to compress the file. When you remove the ".ark" from the end of the file's name, Smart Names will tell AutoArk to expand the file back to its original size. You can also set up folders with names ending in ".ark" and when you copy a file into the folder, Smart Names will tell AutoArk to compress the file!



You get to decide which file types get compressed and which ones don't!



Lets you see exactly how much disk space your compressed files are saving!

AutoArk originally sold for almost $50, but now it's just $35! And, if you want to save even more money, you can order our AutoArk/Balloon bundle, and get both great programs for just $55! (Balloon is our popular "ShrinkIt in an NDA" program. Balloon normally sells for $25, so you save $5 by getting both programs at the same time.) If you are a previous owner of AutoArk, you can upgrade to v1.1 for just $10! You can also get the new AutoArk manual for just $5 more [$15 total]. Just give us a call for details, and be sure to have your AutoArk serial number handy.

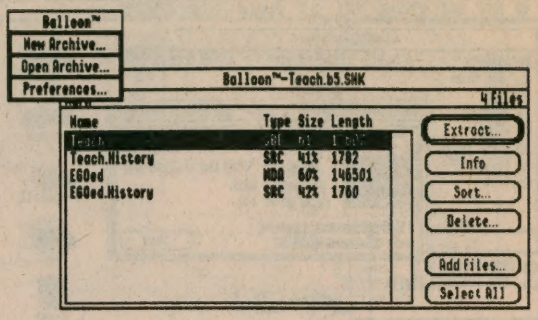
To order AutoArk v1.1, send a check or money order for $35 in U.S. funds to: EGO Systems, 7918 Cove Ridge Rd., Hixson, TN 37343. (Price includes first class shipping to North America and surface mail to the rest of the world. For air mail delivery outside North America, add $3.) If you prefer to order by credit card, you can use your Visa or MasterCard by calling us toll-free at 1-800-662-3634. Outside of North America, please call 1-423-843-1775. Or, FAX us at 1-423-843-0661. TN residents add 7.75% sales tax. System Requirements: An Apple IIGS with System 6.0.1 or later, 2MB of RAM and at least one 3.5-inch disk drive. A hard drive and 4MB of RAM are strongly recommended! AutoArk was written by D. Proni. Smart Names was written by Josef W. Wankerl. AutoArk, Balloon, and Smart Names are trademarks of EGO Systems. Apple IIGS is a trademark of Apple Computer, Inc.

1-800-662-3634 or 1-423-843-1775 or 1-423-843-0661 (FAX)

EGO Systems, 7918 Cove Ridge Rd., Hixson, TN 37343-1808

Balloon™

Balloon is a new desk accessory (NDA) that allows you to easily create and maintain NuFX (ShrinkIt) archives on your IIGS. Since Balloon is a NDA, you no longer have to run GS-ShrinkIt to extract files from ShrinkIt archives! So, if you use a desktop telecommunications program, like Spectrum from Seven Hills Software, you can manipulate your ShrinkIt archives while you are still online!



Here are a few of Balloon's features:

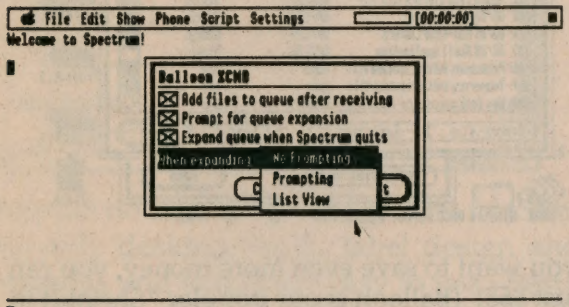
Balloon can extract files from ShrinkIt archives and create new ShrinkIt archives.

Balloon can add/remove files to/from existing ShrinkIt archives.

Balloon recognizes ShrinkIt archives that are enclosed in Binary II, MacBinary and America Online for Macintosh "wrappers."

Balloon lets you have multiple archive and file information windows open at once.

Balloon is Finder friendly! Double-click on a ShrinkIt archive and Balloon opens it automatically! Balloon can also communicate with other system extensions to automatically open files after they are extracted from an archive!



The Balloon package also comes with the Balloon XCMD for Spectrum v2.0. By using this XCMD with Spectrum v2.0, you can have Balloon automatically expand the ShrinkIt archives that you download with Spectrum! You don't even have to open the Balloon new desk accessory!

In addition, the Balloon XCMD for Spectrum v2.0 lets you write Spectrum scripts that give you full access to the Balloon new desk accessory and all its capabilities. For example, you can write a script that will create a new archive and add files to it. Or, you could write a script that would open an existing archive and extract all the files from it to a folder that you specify!

To order Balloon, send a check or money order for $25 in U.S. funds to: EGO Systems, 7918 Cove Ridge Rd., Hixson TN 37343. You can also order with your Visa or MasterCard by calling us toll-free at 1-800-662-3634. Outside of North America, please call 1-423-843-1775. Or, FAX us at 1-423-843-0661. TN residents add 7.75% sales tax. System Requirements: An Apple IIGS with System 6.0.1 or later, 2MB of RAM and a hard disk drive. More RAM is strongly recommended! Balloon was written by Josef W. Wankerl. Balloon is a trademark of EGO Systems. ShrinkIt is a trademark of Andy Nicholas. Spectrum is a trademark of Seven Hills Software, Inc. America Online is a trademark of America Online, Inc. Apple IIGS & Macintosh are trademarks of Apple Computer, Inc.

All programs require IIGS System Software v6.0.1 unless otherwise noted.

All prices include postage and handling. (Orders will be sent First-Class to the U.S., Air Mail to Canada and Mexico, and surface mail to all other countries. For Air Mail to all other countries, add an additional $3 per issue. If you pay by credit card, you will be charged only for the additional postage needed.) *Tennessee residents must add 7.75% sales tax.* Mail back issue requests to: *GS+* Back Issues, c/o EGO Systems, 7918 Cove Ridge Rd., Hixson, TN, 37343-1808; or call 1-800-662-3634 (or 423-843-1775), Monday through Friday, 9 a.m. to 5 p.m. Eastern Time, to order or verify availability. Please include a list of second choices and/or your phone number and/or an e-mail address with all orders placed by mail (in case we are sold out of an issue)! For MasterCard or VISA orders placed by mail, also include your credit card number, expiration date, and signature. *Any issues not listed are sold out!*

Have Fun With Your IIGS!

Pick 'n' Pile - $20

Pick 'n' Pile is a great game for your IIGS that would probably remind you of Tetris, if Tetris had walls, flowerpots, wildfires, bombs, and death heads! In Pick 'n' Pile, your job is to clear the screen of various colored balls, by stacking them on top of each other. As you try to accomplish this task, some helpful items appear to make your job easier (like the bombs), and other items appear to make your job more difficult (like the death heads). It's extremely addictive, and a lot of fun!

System requirements: System 5.0.4 or later, 1MB of RAM, and one 3.5-inch drive.
Price includes First Class shipping to U.S., Canada, Mexico, and surface mail to rest of the world.
Air Mail shipping is an additional $3.

Shanghai II: Dragon's Eye - $30

Shanghai II is an amazingly fun game based on the 3,000-year-old game of Mah-Jongg. In Shanghai II, your goal is to clear the playing field of colorful tiles by finding matching pairs of tiles. It sounds simple, but it leads to one of the most addictive games ever created for the Apple IIGS! Shanghai II is a classic game that is available for the IIGS in limited quantities, so be sure to get yours today!

System requirements: System 5.0.4 or later, 1.25MB of RAM, and one 3.5-inch drive. (A hard drive is recommended.) Price includes First Class shipping to U.S., Canada, Mexico, and surface mail to rest of the world. Air Mail shipping is an additional $3.

Twilight II Screen Saver - $29.95

Twilight II is the *best* screen saver that you can buy for your Apple IIGS . It's also the most entertaining screen saver that you can get for your IIGS! Twilight II comes with over 40 cool displays that you can use to prevent screen burn-in while your IIGS is idle. Light up your screen with a fireworks display or play any PaintWorks animation you have handy. Or, let Twilight II pick a display at random!

System requirements: System 6.0 or later, 1.25MB of RAM, one 3.5-inch drive and a hard drive. Price includes First Class shipping to U.S., Canada, Mexico, and surface mail to rest of the world. Air Mail shipping is an additional $3.

KansasFest Videos - $15 & $20

If you've never been to KansasFest, you owe it to yourself to check out these videos! With them you'll find out what really goes on when Apple II-lovers from around the world get together to celebrate their favorite computer (and make fun of each other). Hey! It's cheaper than a flight to Kansas City!
1992 KansasFest Video - $15, 1995 KansasFest Video - $20, Both Videos - $30

Requirements: VHS VCR and a desire to laugh. Price includes First Class shipping to U.S., Canada, Mexico, and surface mail to rest of the world. Air Mail shipping is an additional $3 per video.

To order, send a check or money order for the appropriate amount (in U.S. funds) to: EGO Systems, 7918 Cove Ridge Rd., Hixson TN, 37343-1808. *Please do not forget to include shipping costs (if any).* If you prefer to order by credit card, you can use your Visa or MasterCard by calling us toll-free at 1-800-662-3634. Outside of North America, please call 1-423-843-1775. Or, FAX us at 1-423-843-0661. Tennessee residents add 7.75% sales tax.

1-800-662-3634 or 1-423-843-1775 or 1-423-843-0661 (FAX)

EGO Systems, 7918 Cove Ridge Rd., Hixson, TN 37343-1808

Get Productive With Your IIGS!

Pointless - $35

Pointless is a control panel that will make all of your IIGS documents look better than ever before by allowing you to use TrueType fonts on your IIGS. And, when you combine Pointless, TrueType fonts, and your StyleWriter, DeskJet or LaserJet printer, you get output that looks like it came off of a high-end laser printer! (Pointless also does wonders for ImageWriter printouts!) Pointless makes all of your on-screen text look better too!

System requirements: System 5.0.4 or later and one 3.5-inch drive. (A hard drive and 2MB of RAM are strongly recommended!) Price includes First Class shipping to U.S., Canada, Mexico, and surface mail shipping to the rest of the world. Air Mail shipping is an additional $3.

TypeSet - $25

TypeSet is the perfect companion for Pointless. It helps you manage your TrueType fonts by providing you with three great utilities in one new desk accessory: a What-You-See-is-What-You-Get Font menu (to make sure you always pick the right font), switchable font sets (to make sure you only use the fonts you need), and an extensive set of font reports (to help you easily build a catalog of all your TrueType fonts).

System requirements: System 5.0.4 or later and Pointless. (A hard drive and 2MB of RAM are strongly recommended!) Price includes First Class shipping to U.S., Canada, Mexico, and surface mail to rest of the world. Air Mail shipping is $3 extra.

Switch-It! - $39.95

Switch-It! is a program switcher and launcher that allows you to have more than one IIGS application in memory at the same time. You can switch between these applications instantly, just by picking the application you want to work with from the menu bar at the top of the screen! Switch-It! also comes with several new desk accessories (NDAs), that allow you to easily copy data from one application that you have in memory, and then paste it into another application.

System requirements: System 6.0 or later, 2MB of RAM and a hard drive. Price includes First Class shipping to U.S., Canada, Mexico, and surface mail to rest of the world. Air Mail shipping is an additional $4.

ZipGS Accelerator - $174.95

Are you tired of waiting on your IIGS? Well then, plug in a ZipGS accelerator card and get ready to blow the doors off of your favorite programs! With a ZipGS 8/16 accelerator installed, your IIGS will run at a snappy 8MHz instead of the wimpy 2.6MHz it's running at now. The Finder will run faster, AppleWorks GS will run faster, AppleWorks Classic will run faster, in fact, just about everything that you do with your Apple IIGS will happen faster! And the ZipGS is simple to install! All you have to do is remove the CPU chip, plug the ZipGS into the CPU socket, plug the ZipGS circuit board into either slot 3 or 4 and then you are ready start computing at ludicrous speed!

System requirements: A ROM 01 or ROM 03 Apple IIGS and a burning desire to go faster!
Price includes First Class shipping to U.S., Canada, Mexico, and surface mail to the rest of the world.
Air Mail shipping is an additional $10.

PaceMark SuperRam IV - $109.95

Need more RAM for your IIGS? The PaceMark SuperRam IV is one of the least expensive 4MB RAM cards available today! Its low price, one-year warranty and 100% compatibility make it a great deal! But hurry, quantities are limited!

System requirements: Apple IIGS. Price includes First Class shipping to U.S., Canada, Mexico, and surface mail to rest of the world. Air Mail shipping is an additional $3.

To order, send a check or money order for the appropriate amount (in U.S. funds) to: EGO Systems, 7918 Cove Ridge Rd., Hixson TN, 37343-1808. *Please do not forget to include shipping costs (if any).* If you prefer to order by credit card, you can use your Visa or MasterCard by calling us toll-free at 1-800-662-3634. Outside of North America, please call 1-423-843-1775. Or, FAX us at 1-423-843-0661. Tennessee residents add 7.75% sales tax.

1-800-662-3634 or 1-423-843-1775 or 1-423-843-0661 (FAX)

EGO Systems, 7918 Cove Ridge Rd., Hixson, TN 37343-1808

Get Creative With Your IIGS!

Animasia 3-D - $89

Animasia 3-D is a program that allows IIGS users to create animations of 3-D objects using a variety of shapes and cameras, and then re-play those animations or save them as standard PaintWorks animation files. Once an animation is saved as a PaintWorks animation, it can then be used with any IIGS program (like HyperStudio and HyperCard IIGS) that supports PaintWorks animations!

System requirements: System Software v6.0.1, 2MB of RAM and a 3.5-inch drive. (A hard drive and an accelerator are very strongly recommended.) Price includes First Class shipping to U.S., Canada, Mexico, and surface mail to rest of the world. Air Mail shipping is an additional $10.

DreamGrafix - $39.95

DreamGrafix is the *only* IIGS paint program that lets you create spectacular graphics using the full 3200-color capabilities of your IIGS! DreamGrafix also allows you to paint in any of the IIGS's other graphics modes: 320, 640, even 256 color mode! DreamGrafix is great for creating new graphics or for touching up graphic files that you bring from another computer to your IIGS.

System requirements: System Software v5.0.4, 1.25MB of RAM and a 3.5-inch drive. (A hard drive is very strongly recommended.) Price includes First Class shipping to U.S., Canada, Mexico. Surface mail to rest of the world is an additional $5. Air Mail shipping is an additional $10.

Golden Orchard Apple II CD-ROM - $59.95

Got a CD-ROM drive hooked to your IIGS? Then this CD-ROM is a *must have!* The Golden Orchard Apple II CD-ROM contains over 600MB of great stuff, *just for your Apple II and Apple IIGS!* Applications, graphics, fonts, sounds, AppleWorks templates, and a complete collection of IIGS System Software are all included on this great CD-ROM! And that's just the tip of the iceberg! The Golden Orchard Apple II CD-ROM is your one-stop Apple II software library!

System requirements: System Software v6.0 or later, and a CD-ROM drive.
Price includes First Class shipping to U.S., Canada, Mexico, and Air Mail shipping to rest of the world.

TypeWest Volume 1 - $25

TypeWest is another great companion for Pointless. It's a collection of 40 professionally-designed TrueType fonts that you can use in all of your documents. If you've just bought Pointless, TypeWest is a great way to start your TrueType font collection! If you already have Pointless, the TypeWest fonts will help add a professional touch to all your documents!

System requirements: TypeWest requires Pointless for use on a IIGS. (The fonts in the TypeWest collection are also usable on any Macintosh running System 7.0 or later.) Price includes First Class shipping to U.S., Canada, Mexico, and surface mail to rest of the world. Air Mail shipping is an additional $3.

To order, send a check or money order for the appropriate amount (in U.S. funds) to: EGO Systems, 7918 Cove Ridge Rd., Hixson TN, 37343-1808. *Please do not forget to include shipping costs (if any).* If you prefer to order by credit card, you can use your Visa or MasterCard by calling us toll-free at 1-800-662-3634. Outside of North America, please call 1-423-843-1775. Or, FAX us at 1-423-843-0661. Tennessee residents add 7.75% sales tax.

1-800-662-3634 or 1-423-843-1775 or 1-423-843-0661 (FAX)

EGO Systems, 7918 Cove Ridge Rd., Hixson, TN 37343-1808

Great IIGS Utilities!

The Complete Guide to SheppyWare - $29.95

The Complete Guide to SheppyWare is a collection of the complete works of prolific Apple II/IIGS shareware author Eric Shepherd. This collection includes over 25 Apple IIGS-specific utilities, as well as programs for regular Apple IIs and the Macintosh. Also included is complete *printed* documentation (in the form of a nicely-bound 100+ page booklet) for each and every program that Sheppy has ever written!

System requirements: Includes programs for the Apple II, IIGS and Macintosh. System requirements vary. Price includes First Class shipping to U.S., Canada, Mexico, and surface mail to rest of the world. Air Mail shipping is an additional $5.

GNO/ME - $89

GNO/ME stands for the "GNO Multitasking Environment." GNO/ME is a command shell that brings multitasking to your IIGS. Using GNO/ME, you can start up multiple tasks (like compiling different parts of a program) and have them execute concurrently! GNO/ME can also be used as a replacement for the ORCA command shell and is compatible with all of the ORCA utilities and languages

System requirements: System 6.0 or later, 2MB of RAM and a hard drive. (More RAM is strongly recommended for multitasking!) Price includes First Class shipping to U.S. Surface mail shipping to the rest of the world is an additional $5. Air Mail shipping to the rest of the world is $10.

HardPressed - $35

HardPressed is compression software that works behind the scenes to give you up to twice a much space on all of your disks! HardPressed will transparently compress and expand files as you use them . . . Open a file and HardPressed expands it. Save a file and HardPressed automatically compresses it. It's that simple! With HardPressed installed, the only difference you'll notice is you've got more disk space!

System requirements: System Software v6.0 or later, 2MB of RAM (a hard drive is strongly recommended). Price includes First Class shipping to U.S., Canada, Mexico, and surface mail to rest of the world. Air Mail shipping is an additional $3.

Splat! - $39.95

Splat! is a source level debugger for use with ORCA/C, ORCA/Modula-2, and ORCA/Pascal. With Splat! installed, you can step or trace through your program's source code while your program executes! You can also view and set the values of variables and you can even view complex data structures, like Event records, and watch their contents change as your program executes! If you program the IIGS, you need Splat!

System requirements: System 6.0 or later, 2MB of RAM, a hard drive and either ORCA/C, ORCA/Modula-2 or ORCA/Pascal. Price includes First Class shipping to U.S., Canada, Mexico, and surface mail to rest of the world. Air Mail shipping is an additional $4.

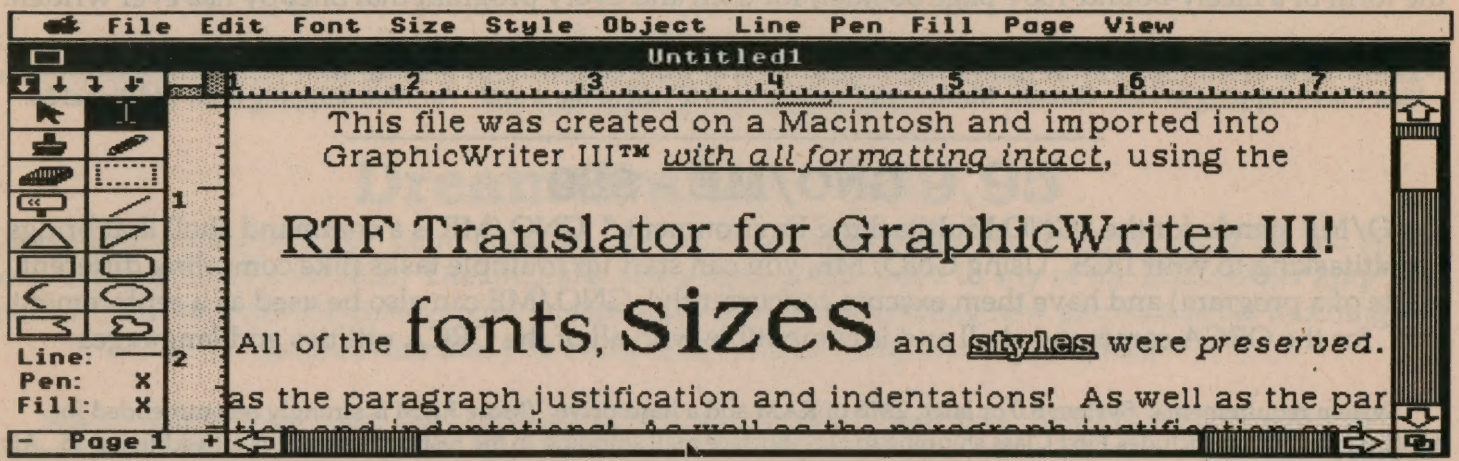
To order, send a check or money order for the appropriate amount (in U.S. funds) to: EGO Systems, 7918 Cove Ridge Rd., Hixson TN, 37343-1808. *Please do not forget to include shipping costs (if any).* If you prefer to order by credit card, you can use your Visa or MasterCard by calling us toll-free at 1-800-662-3634. Outside of North America, please call 1-423-843-1775. Or, FAX us at 1-423-843-0661. Tennessee residents add 7.75% sales tax.

1-800-662-3634 or 1-423-843-1775 or 1-423-843-0661 (FAX)

EGO Systems, 7918 Cove Ridge Rd., Hixson, TN 37343-1808

RTF Translator For GraphicWriter III™

"RTF" stands for "Rich Text Format." This is a file format specifically designed to allow formatted text information to be easily moved from one computer platform to another. So, using this translator, GraphicWriter III users can import RTF files created on *any* computer!



File Edit Font Size Style Object Line Pen Fill Page View
Untitled1
This file was created on a Macintosh and imported into
GraphicWriter III™ with all formatting intact, using the
RTF Translator for GraphicWriter III!
All of the fonts, sizes and styles were preserved.
as the paragraph justification and indentations! As well as the par
Line:
Pen:
Fill:
Page 1

When you import an RTF file into GraphicWriter III, here's what the translator squeezes out of the file for you:

- Font Information: Typeface (Times, Helvetica, etc), size (10 point, 24 point, etc.) and style (bold, superscript, etc.) information is all preserved!

- Text Colors: Colored text is automatically given the best-matching GraphicWriter III color!

- Paragraph Justification: Was that paragraph originally centered? Or was it right justified? No need to guess, the RTF Translator figures it out for you!

- Paragraph Indentation: Each paragraph's indentation is recreated in GraphicWriter III, relative to the columns in your page layout!

And, the RTF Translator for GraphicWriter III doesn't just import RTF files, it *exports* them as well! This is a great way to share the text you create in GraphicWriter III with all those non-IIGS-owning computer users out there!

The RTF Translator for GraphicWriter III requires GraphicWriter III v1.1 or later (version 2.0 is recommended but *not* required). It comes on a single 3.5-inch disk and includes printed user's documentation. The price is just $24.95, which *includes* shipping to anywhere in the world!

To order, send a check or money order for the appropriate amount (in U.S. funds) to: EGO Systems, 7918 Cove Ridge Rd., Hixson TN, 37343-1808. *Please do not forget to include shipping costs (if any).* If you prefer to order by credit card, you can use your Visa or MasterCard by calling us toll-free at 1-800-662-3634. Outside of North America, please call 1-423-843-1775. Or, FAX us at 1-423-843-0661. Tennessee residents add 7.75% sales tax.

PMPFax™

Here's a crazy idea for a product . . . IIGS Fax software . . . *that actually works!* No joke! Simply install PMPFax on your IIGS, reboot, and you've got a complete Fax center right on your computer! Send Faxes, receive Faxes, forward Faxes, build phone books of Fax numbers, print out the Faxes you receive, schedule Faxes for later transmission, create your own cover sheets using Super-High-Resolution graphics, and *much, much, much* more!

With PMPFax installed, sending a Fax from your favorite desktop application is simple! Just hold down the option key when you pick Print from the File menu, and PMPFax intercepts the printed pages, faxing them to the recipient (or recipients) of your choice! (And, yes, PMPFax also works with new desk accessory editors like EGOed™!)

PMPFax works with just about every Fax modem out there (including the one you may have gotten when you bought that "other" IIGS Fax software), and it can Fax any document from any IIGS desktop program. Best of all PMPFax is just $84.95 from EGO Systems and has our 30-day, money-back guarantee! So don't delay, turn your IIGS into a high-powered Fax center today!

System requirements: System Software v6.0.1 or later, a hard drive, 4MB of RAM (at least 1.5MB of *free* RAM is required), and a Class 1, 2 or 2.0 Fax Modem. Price includes First Class shipping to U.S., Canada, Mexico, and surface mail to rest of the world. Air Mail shipping is an additional $3.

ANSITerm™

ANSITerm was the first full-function terminal software for the IIGS that supported color ANSI emulation. The current version (2.1) adds lots of new features to this popular program that make it a great choice for IIGS telecommunications:

Fast Custom Character Generator Keeps Up with Today's High-Speed Modems!
Supports PC-ANSI, VT-100, VT-52, TTY & ProTerm™ Special Displays!
Powerful Macro Language & Support for External Script Files!
Full-Screen Text Editor, Reads AppleWorks Classic WP Files & Converts Unix-type Text to Apple II!
Full Support for Xmodem, Ymodem, Zmodem, Kermit, and Binary II!
Up to 65,535 Lines Can be Held in the Scrollback Buffer!
Dialing Directory Holds up to 50 Names & Numbers!
Supports the Super Serial Card, Turbo-ASB & IIGS Serial Port!
And Much, Much More!

ANSITerm v2.1 is only $64.95 from EGO Systems. So if you've been itching to get online, order your copy today!

System requirements: Apple IIGS with 1MB of RAM, ProDOS 8 v1.9 or later, and a modem. Price includes First Class shipping to U.S., Canada, Mexico, and surface mail to rest of the world. Air Mail shipping is an additional $10.

To order, send a check or money order for the appropriate amount (in U.S. funds) to: EGO Systems, 7918 Cove Ridge Rd., Hixson TN, 37343-1808. *Please do not forget to include shipping costs (if any).* If you prefer to order by credit card, you can use your Visa or MasterCard by calling us toll-free at 1-800-662-3634. Outside of North America, please call 1-423-843-1775. Or, FAX us at 1-423-843-0661. Tennessee residents add 7.75% sales tax.

Great AppleWorks™ Utilities!

TimeOut About Time™ - $14.95

This is a TimeOut module that allows you to quickly and easily perform date and time calculations and then move the results into your AppleWorks documents. About Time performs many different types of calculations involving dates and times including: day-of-week, number of days/weeks/months/years between two dates, number of minutes/hours between two times, and unit conversions. It also converts between Gregorian and Julian Calendar systems, and can change the current system time for your computer to any date or time you choose. About Time can input data from Data Bases or SpreadSheets and output its results to any file on the AppleWorks desktop!

System requirements: AppleWorks v2.0 or later, and one 3.5-inch drive. (Works with Deja][on the Macintosh.) Price includes First Class shipping to U.S., Canada, Mexico, and Air Mail shipping to rest of the world.

TimeOut Disk Tools™ - $49.95

This TimeOut utility makes several powerful disk utilities available from within AppleWorks. Included are:

Compare WP - This utility allows you to compare the contents of any two AppleWorks WP files. The two you select are presented in a "split screen" view with the differences between the two files hilighted.

File Backup - Like the name implies, this TimeOut utility lets you perform file-by-file backup and restore operations without ever having to leave AppleWorks!

Volume Backup - This utility allows you to create or restore disk-image backups from within AppleWorks!

Wherzit? - So, you know you wrote that angry letter to your Congressperson, but you can't find it? This utility will let you search your hard drive for any file, using a variety of search criteria (file name, type, date, and more)!

System requirements: AppleWorks v3.0 or later, and one 3.5-inch drive. (Works with Deja][on the Macintosh. Some utilities only work with ProDOS disks and will not work with Macintosh disks.) Price includes First Class shipping to U.S., Canada, Mexico, and surface mail to rest of the world. Air Mail shipping is an additional $3.

TimeOut ShrinkIt-Plus™ - $29.95

This TimeOut module lets you manipulate ShrinkIt archives without ever having to leave AppleWorks! TimeOut ShrinkIt-Plus can extract files from archives, add files to archives, remove files from archives, and even create new archives! And, better still, TimeOut ShrinkIt-Plus allows you to extract files from an archive directly to the AppleWorks desktop! You can even take a file that's on the AppleWorks desktop and put it directly into a ShrinkIt archive, all without leaving AppleWorks!

System requirements: AppleWorks v4.01 or later, & one 3.5-inch drive. (Works with Deja][on the Macintosh.) Price includes First Class shipping to U.S., Canada, Mexico, & surface mail to rest of the world. Air Mail shipping is an additional $3.

TimeOut Statistics™ - $79.95

This TimeOut module lets you perform complex statistical analysis on the data in your AppleWorks databases. TimeOut Statistics comes with three different utilities that allow you to analyze single-sample databases, multiple-sample databases, and nonparametric databases. Among the many different types of statistical operations you can perform are: Variance, Mean, Standard Deviation, Hypothesis Testing, Linear Regression, Two Sample t-Test, Analysis of Variance, Histogram, Wilcoxon Rank Sum, and more!

System requirements: AppleWorks v3.0 or later, & one 3.5-inch drive. (Works with Deja][on the Macintosh.) Price includes First Class shipping to U.S., Canada, Mexico, & surface mail to rest of the world. Air Mail shipping is an additional $3.

To order, send a check or money order for the appropriate amount (in U.S. funds) to: EGO Systems, 7918 Cove Ridge Rd., Hixson TN, 37343-1808. *Please do not forget to include shipping costs (if any).* If you prefer to order by credit card, you can use your Visa or MasterCard by calling us toll-free at 1-800-662-3634. Outside of North America, please call 1-423-843-1775. Or, FAX us at 1-423-843-0661. Tennessee residents add 7.75% sales tax.

EGO Systems, 7918 Cove Ridge Rd., Hixson, TN 37343-1808

Publish-It!™ v4.0 - $39.95

This was the first page-layout program ever written for the Apple II and it's still one of the best! It allows you to easily mix text and graphics on your pages and it supports dozens of different printers. Here's just a *partial* list of Publish-It! v4.0's features:

Works With *any* Apple II or Compatible!
Automatic Hypenation!
Uses IIGS Bitmapped Fonts!
Prints to HP DeskJet and LaserJet Printers!
Prints to any 100% PostScript-Compatible Printer!
Can Save PostScript Files to Disk!
Prints in Color on ImageWriter II!
Lets You Save Commonly Used Layouts as Templates!
Gives You Control of Character Kerning and Line Spacing!
Imports AppleWorks v3.0, BankStreet Writer and ASCII Text Files!
Supports Extended Memory on all Apple II Models!
Includes Tools for Creating Your Own Graphics!
Lets You Format Disks Without Leaving the Program!
Lets You View Your Pages in Multiple Sizes on Screen!
Automatically Wraps Text Around Graphics!
Imports PrintShop, DazzleDraw, MousePaint *and* IIGS Super-High Resolution Graphics!

So, if you don't have a IIGS or a Mac, and you want to be able to create professional-looking page layouts, Publish-It! v4.0 is the *only* way to go! But hurry! We've only got a limited number of copies in stock. Once they're gone, they're gone for good!

Printers supported: ImageWriter, Scribe, Epson LQ/MX/FX/RX/LX/JX/LQ, Gemini 10X/15X, Okidata 182/192/193/292/293, Panasonic KX-P, HP LaserJet/DeskJet and any 100% compatible PostScript printer! (If your printer isn't in this list, call us at 1-423-843-1775 to check on it!)

System requirements: Apple IIe (enhanced), IIc, IIc+, IIGS or Laser 128, 128EX or 128EX/2 with at least 128K RAM. One 3.5-inch or 5.25-inch drive and/or hard disk. Mouse or joystick is *required*. Price includes First Class Shipping to U.S. Canada, Mexico. Surface mail to the rest of the world is an additional $5. Air Mail shipping is an additional $10. (Note: The manufacturer of this product is no longer in business and it is sold "as is.")

To order, send a check or money order for the appropriate amount (in U.S. funds) to: EGO Systems, 7918 Cove Ridge Rd., Hixson TN, 37343-1808. *Please do not forget to include shipping costs (if any).* If you prefer to order by credit card, you can use your Visa or MasterCard by calling us toll-free at 1-800-662-3634. AppleWorks? On a Macintosh?

If you love your new Macintosh™, but you hate the fact that you had to give up using AppleWorks™ on your Apple II, have we got a product for you!

Deja][is a Macintosh application that lets you run AppleWorks, on your Macintosh! Deja][also lets you run all of your TimeOut modules and all of your UltraMacros, without any changes! You can even load AppleWorks files to and from your Macintosh hard drive, print to your Macintosh printer, and use the Macintosh clipboard to share data between AppleWorks and your Macintosh applications!

Deja][*isn't* an AppleWorks "clone," Deja][lets you run honest-to-goodness AppleWorks right on your Macintosh! Just copy Deja][to your Macintosh hard disk, then copy a few files from your original AppleWorks v5.0 or v5.0.1 disk to your Macintosh hard disk, double-click on the Deja][icon, and boom! You're running AppleWorks!

Pricing & System Requirements

Deja][is available from EGO Systems for just $79.95. This price includes First Class or Air Mail shipping to anywhere in the world. Deja][does *not* include AppleWorks, so, you *must* have a *separate* copy of AppleWorks v5.0 or later to use Deja][! You also need a Macintosh (PowerPC or 680x0) running System 7 or later. A 68030 or later is recommended for best performance.

Deja][is a trademark of JEM Software. Used with permission. AppleWorks is trademark of Claris. To order, send a check or money order for $79.95 (in U.S. funds) to: EGO Systems, 7918 Cove Ridge Rd., Hixson TN, 37343-1808. If you prefer to order by credit card, you can use your Visa or MasterCard by calling us toll-free at 1-800-662-3634. Outside of North America, please call 1-423-843-1775. Or, FAX us at 1-423-843-0661. Tennessee residents add 7.75% sales tax.

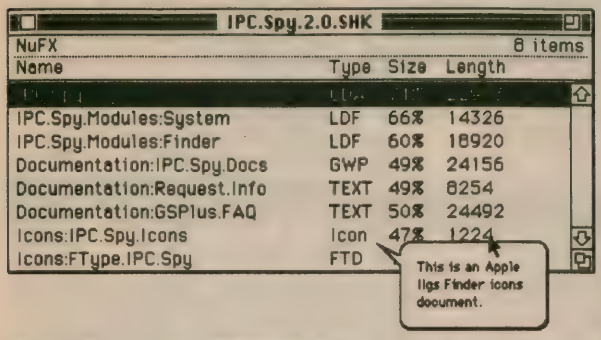
Shrink II™

If you are a Macintosh user that also owns (or you know someone that owns) an Apple II, you know what a hassle it can be to move files from one machine to another. It can be especially frustrating to send files from a Macintosh to an Apple II via modem, due to the fact that there isn't a common archive format on the two machines.



Shrink II is a new Macintosh application that solves this problem by giving your Macintosh the ability to work with ShrinkIt archives that were created on the Apple II. Shrink II also allows you to *create* ShrinkIt archives (complete with Binary II wrappers) that you can share with your Apple II-owning friends!

Even if you don't know anyone with an Apple II, Shrink II gives you access to the tens of thousands of ShrinkIt archives that you'll find online all over the world. Inside those archives you'll find thousands of files that can easily be used on your Macintosh. Files like: HyperStudio IIGS files (which can be used with HyperStudio for the Mac), graphics and sound files (which can be converted for use on the Mac), AppleWorks Classic files (which can be used with Deja][), and freeware and shareware applications that you can use on any Macintosh equipped with the popular Apple IIe-emulation card!

Shrink II opens just about every Apple II archive format (ShrinkIt, Binary II, SQueeze, Self-Extracting Archives, AppleSingle, and more!), and it can encode and decode files using the Apple II BinSCII standard. Shrink II also has extensive Balloon Help. Using it, you can open a ShrinkIt archive, point at a file in the archive, and Shrink II will tell you what kind of data is in the file!

Teach Translator™

One of the most common types of files you'll find in ShrinkIt archives is the "Teach" file. Teach files are the IIGS-equivalent of SimpleText or TeachText files on the Macintosh. Unfortunately, until now, there hasn't been an easy way to use Teach files on the Macintosh without losing all of the formatting contained in them. EGO Systems' Teach Translator for Macintosh Easy Open solves this problem by letting you open any Apple IIGS Teach file on your Macintosh as if it were just another Macintosh document! The Teach Translator retains all of the Teach file's font, size, style and foreground color information so that it shows up correctly on your Macintosh! If you have both an Apple IIGS and Macintosh, or you use Shrink II, the Teach Translator will be a big help in moving Teach files to your Macintosh!

Pricing and System Requirements

Shrink II costs $39.95 and the Teach Translator costs $24.95. But, if you order them together, you can get them both for just $50! (All prices include shipping to the United States and Canada. Air Mail shipping to anywhere else in the world is $3 extra.)

Shrink II requires a Macintosh (680x0 or PowerPC) with System 7.0 or later. Shrink II takes up approximately 400K of space on disk and requires 512K of free RAM for operation. The Teach Translator requires a Macintosh (680x0 or PowerPC) running System Software v7.0 or later *and* Macintosh Easy Open. Shrink II and the Teach Translator are "Fat" applications that will run in native mode on your Power Macintosh.

The Fine Print

Shrink II and Teach Translator are trademarks of EGO Systems. All other product names are trademarks of their respective owners. Orders for in-stock items are shipped no later than the next business day. We accept Visa and MasterCard. Personal checks and Money Orders (made payable to "EGO Systems") are also accepted. All of our products have a 30-day, money-back guarantee. If you decide you don't like one of our products, return it within 30 days (with all materials intact) and we'll give you your money back! (Sorry, shipping charges are *not* refundable.)

Our hours are 9 a.m. to 5 p.m. Eastern time, Monday through Friday.

To order, FAX us at 423-843-0661 or call:

Qty Applies.

Amaze You're Friends By What You Can Do With Your Apple IIGS!

We've got a pile of amazing software here at the Byte Works, and prices that would scare you away if you didn't know the programs were created by Apple Computer and the staff of the Byte Works itself! And we're one of the companies that actively supports the Apple IIGS—keep reading to find out about our latest upgrades!

Worldwide APDA Distributor

Save up to 25% when you upgrade your ORCA languages!

Yes, you heard right. We're the official **worldwide distributor of all Apple II APDA products** created by Apple Computer. From a DOS system disk to an Apple //c technical reference manual, we're often the only place in the world to get the complete scoop on Apple's Apple II products.

Our own line of programming tools is pretty famous, too. We also have hard to find books and some unique productivity tools!

Your Computer Needs Our Catalog!

If you've never heard of us, or haven't seen our complete line of products, shame on you! Your computer needs us! Drop us a line, with your name and address, and let us know what you and your computer are interested in. We'll send you a complete catalog and price list, along with details on some programs we thing might interest you.

It's not just the compilers that changed. Our updates include a new shell, editor, PRIZM, linker, and several new utilities.

New ORCA Upgrades

If you're a programmer, you're almost certainly using at least one of our programming products already. You'll be happy to hear that **we've upgraded all three major ORCA languages**. And to reward those of you who use more than one language—or always wanted to, but were too poor (or cheap) to buy more than one—we've created a deal you can't refuse. Buy an upgrade, a new compiler, or a programming bundle for two of the three upgraded languages and you'll get a **10% discount** OK, you're not excited yet. Buy an upgrade or new compiler for all three, and we'll give you a **25% discount**. And the discounts are **off of your entire order!** So if you buy the upgrade for ORCA/M and ORCA/C, and buy a new ORCA/Pascal, you'll get 25% off of everything you put on the order—even a dozen or so APDA products you've wanted for a long time!

Stay in Touch

Even if you don't want to buy anything, drop us a line. Let us know if you've moved, ask for our latest catalog, and let us know that you and your Apple II are still having fun together, and still need to hear from us when we have something new!

With over 80 Apple II products, no one should be without our catalog! It's free. Just send your name and mailing address and ask for a copy.

KFest '96 computer expo

Apple II • Mac • Newton

July 18-20 • Avila College • Kansas City, MO

KFest '96 will again be held on the campus of Avila College in Kansas City, Missouri. It will take place from July 17-21, 1996. The cost will be only $325, which **includes** use of a double room in the Avila College dorms **and** meals! (If you wish to stay at one of the many hotels or motels near the college then the cost is $225, but you would, of course, have to find and pay for your own room.)

If you have been thinking about attending KFest '96. now is the time to sign up. The registration fee will be going up on May 19th to $375 for the dormitory and conference, and $275 for the conference only. The last date pre-registrations will be accepted is July 13th.

KFest this year is being sponsored by Kellers' Auto Electric, Inc. You can send your completed registration forms (which are available online, [see below]) to:

KFest '96
c/o Kellers
P. O. Box 391
Brielle, NJ 08730

* Please make checks payable to: Kellers' / Kfest '96

Credit Card registration is also available. Just call Kellers' Auto Electric, Inc with your VISA, MasterCard or American Express number at (908) 775-0371, Mon-Fri 8:00AM-5:00PM Eastern Time. If you prefer, you can FAX your registration with VISA or MasterCard account number and expiration date to: (908) 223-0678 Mon-Fri 8:00AM-5:00PM Eastern Time.

If you prefer registering by e-mail, and are using a VISA, MasterCard, or American Express for payment, you can send the completed registration form via InterNet e-mail to:

timothyk@injersey.com

If you have questions about KFest, or wish to make suggestions, you can find answers via the InterNet. Just send an e-mail message to kfest.info$@genie.com, or visit the World Wide Web page at http://www.primenet.com/~adams/kfest.html
